

Summertime Beach Layout

Designed by Lisa Falduto

There is nothing better than being at the beach on a warm summer day; the sound of waves crashing into the shoreline, the feeling of sand between my toes and the warmth of the sun on my face. There's no better way to preserve those warm summer memories than by creating your very own beach scene using the Wausau Paper® Creative Collection™. It will hold your special photos for years to come!

Supplies

Wausau Paper® Creative Collection™
12"x12" Cardstock

- 2 sheets Crinkles Dusk
- 1 sheet Crinkles Artesian Blue
- 1 sheet Classics Balsa
- 1 sheet Classics Re-Entry Red™
- 1 sheet Astroparche® Sand Crepe Embossed

Fiskars Crafts

- Premium Crafters Trimmer
- Classic No. 8 Scissors
- Boundary Waters border punch

Cosmo Cricket Snorkel Ready-Set-Chip

1 black journaling pen

Adhesive runner

5"x7" photo or two smaller photos to fit
in 5"x7" space

Brown ink pad

Instructions

1. Start with one sheet of Wausau Paper® Creative Collection™ Crinkles Dusk cardstock. Place this on your work space.
2. Next take one sheet of Wausau Paper® Creative Collection™ Classic Balsa cardstock and trim two sides so the finished piece measures 11-1/2" x 11-1/2". Center this piece over the cardstock base from Step #1; attach using the adhesive runner.
3. Cut four strips measuring 1-1/2" x 11-1/2"; 2 from Wausau Paper® Creative Collection™ Crinkles Dusk and 2 from Wausau Paper® Creative Collection™ Crinkles Artesian Blue.
4. Using the Boundary Waters border punch, create the wave design along the top of all 4 strips from Step #3.
5. Cut a piece of Wausau Paper® Creative Collection™ Astroparche® Sand Crepe Embossed cardstock that measures 3-1/4" x 11-1/2". Hold the short end of the cardstock with one hand; with your other hand, slowly tear a strip about 1/4 inch wide down the long side of the cardstock. This torn paper edge will be the top of the sand for your beach scene.

6. Take the brown ink pad and lightly run it along the top of the torn edge piece you created in Step #5. Attach this sand piece, torn side up, to the bottom of the Wausau Paper® Creative Collection™ Classic Balsa cardstock using the adhesive runner, leaving the top edge open about 1/2".
7. Tuck one of the Wausau Paper® Creative Collection™ Crinkles Dusk wave pieces under the top of the sand and attach. Continue alternating between the Wausau Paper® Creative Collection™ Crinkles Dusk and Wausau Paper® Creative Collection™ Crinkles Artesian Blue pieces until all are secured in place.
9. Mount your photo(s) on to Wausau Paper® Creative Collection™ Classic Re-Entry Red™ cardstock and trim the outer edge to leave a 1/4" border [the mounted photo(s) should measure approximately 5"x7"]. Tuck the matted photo in between the top two Wausau Paper® Creative Collection™ Artesian Blue and Dusk wave pieces.
10. Punch out the following pieces from the Cosmo Cricket Snorkel Ready-Set-Chip sheet:
 - "Summertime" word
 - Lifesaver ring
 - Flip-flop red round circle
 - Yellow submarine
11. Place the chipboard pieces as shown on the assembled piece. Carefully wrap the letters from the word "summertime" around the upper left hand corner of your photo. Position the lifesaver on the right hand side of the mounted photo; secure the flip-flop circle in the center of the lifesaver. Tuck the yellow submarine in between two layers of the wave pieces.
12. To finish, personalize your piece with some creative journaling in black pen. Follow the flow of the torn paper sand to reinforce the rolling of the waves. Very grand!
